

Spring 2025

University of Pittsburgh's Department of Physics & Astronomy
ARTIST IN RESIDENCE PROGRAM

Are you in a creative field? Do you have an interest in physics and astronomy?

If so, we have great news! We are now accepting proposals for **Artist-in-Residence projects that respond to Physics and Astronomy research from creative perspectives**. Artists will embed themselves in a research lab/group to envision and produce a creative response that connects to the scientific research.

\$500 AWARD FOR SELECTED ARTISTS!

Funding for reasonable material, presentation, and display expenses will also be provided.

Proposal Requirements

- Applicant must be an **undergraduate** or **graduate** student major/minoring in **English, Music, Studio Arts, Film Studies, Theatre Arts, or Architecture**
- Application file with applicant's **contact information, GPA, resume,** and unofficial **transcript**.
- An **artistic department faculty letter** displaying the faculty member's support & how they will support the artist, such as a mutual commitment to regular meetings or registering for independent study.
- A **two-page proposal** for the creative plan that connects the creative work to the research groups.
- A **one-page budget** estimating material and presentation expenses.
- Provide **work samples** in the form of:
2-3 written works, 3-5 images, 2-3 video samples, OR two 5-10-minute composition samples.

Collaborative applications are welcome. Preference is given to those who have not previously participated.

INFORMATION SESSIONS

Potential applicants will be able to meet sponsoring research groups & attend a brief tour of the labs.

Wednesday, October 16, 2024

3:00-4:00 PM; 100H Allen Hall

Thursday, October 17, 2024

3:00-4:00 PM; 100H Allen Hall

**Applications Due November 11, 2024
to Michele Slogan via slogan@pitt.edu**
